## Profile

I am a driven and self-motivated developer with both front-end and back-end experience. I have successfully converted a teenage interest in PHP into commercial development experience through hard work and self-directed learning.

I'm friendly, confident, passionate about the web and famous for being tall!

## Key Skills & Technologies

Object-Oriented PHP, HTML, CSS (including LESS & Sass / Scss), Javascript (including jQuery), MySQL, Git. Responsive development. Wordpress development, Laravel. Facebook, Twitter, Youtube, Souncloud APIs. Experience working with Mailchimp / Sendy. Experience with setting up AWS servers and \*nix command line tools.

## Employment

July 2013 -

Web developer (part time), Civil Music / Hyponik,  
<http://civilmusic.com>

I developed a new website for Civil Music, an independent record label, to replace an existing site while improving user experience and functionality. The site is based on Wordpress, and I have written plugins to integrate with Soundcloud, Songkick, Topspin, Youtube and Sendy. I am currently planning a promotions site offering watermarked audio downloads for delivery in July 2014.

I have also designed and developed tour-promotion micro-sites ( e.g. <http://dirtybirdrecords.com/dirtybirdBBQ/> ) and Facebook apps for external clients.

2007 - 2013

Theatre Technician and Stage Manager, Various

Theatre is an extremely high-pressure industry and I gained valuable experience in time management, adapting to changing requirements and working in and leading small teams.

## Education
